Mio™

COLLABORATIVE TABLES

NATIONAL®

Elevate collaboration and redefine workspaces.

Mio collaborative tables create design-driven workspaces for open plan configurations and meeting areas. With single-sided and double-sided units, and a variety of worksurface shapes, sizes, and materials, Mio embraces the evolving work culture. Available at worksurface height or bar height, Mio's tech-savvy base conceals cords and power access. This creates a clean aesthetic and keeps workspaces organized and clutter-free while maximizing leg room. Its vertical surface can house TVs, markerboards, or decorative inserts, making it as versatile as it is practical.
