DAVID EDWARD

Portata®

Designed by
Fabio di Bartolomei

A sleek seating solution to enlighten any space.

With a vision to merge elegance with technological prowess, designer Fabio Di Bartolomei, masterfully reimagined the ancient technique of leather working known as "Capitoné". He ingeniously crafted a texture that gives the illusion of softness while being constructed from a rigid and durable polyurethane. This artful blend of soft aesthetics and robust composition creates a visual paradox that captivates the observer.

STATEMENT OF LINE

Side Chair
Sled Base

KC8SSL1
KC8SSL4 Set of 4
